17 June

Understanding A/C & heating systems

Everything for "do it yourself" repair needs!

The facility provides patrons with a clean, earth-friendly and safe environment that features twelve plain work bays and twelve work bays with vehicle lifts!

The center also provides technical assistance, tools, and equipment for patrons to repair or to perform routine maintenance tasks on privately owned vehicles.

The Auto Skills Center has trained instructors and volunteers to guide patrons through a wide range of repair or maintenance tasks. Patrons do the repairs and the staff ensures that industry standards are met.
